The second step in the model is to determine the probability of a given individual being infected by a given source. This is done by calculating the probability of a given individual being exposed to a given source, and then the probability of infection given exposure. The probability of exposure is determined by the probability of a given individual being in the same location as a given source, and the probability of infection is determined by the probability of a given individual being infected by a given source given exposure.

the 1990s, the number of people in the world who are under 15 years of age has increased by 100 million. The number of people aged 15 and over has increased by 1.5 billion. The number of people aged 65 and over has increased by 100 million. The number of people aged 75 and over has increased by 50 million. The number of people aged 85 and over has increased by 20 million. The number of people aged 95 and over has increased by 10 million. The number of people aged 100 and over has increased by 5 million. The number of people aged 105 and over has increased by 2 million. The number of people aged 110 and over has increased by 1 million. The number of people aged 115 and over has increased by 500,000. The number of people aged 120 and over has increased by 250,000. The number of people aged 125 and over has increased by 125,000. The number of people aged 130 and over has increased by 62,500. The number of people aged 135 and over has increased by 31,250. The number of people aged 140 and over has increased by 15,625. The number of people aged 145 and over has increased by 7,812.5. The number of people aged 150 and over has increased by 3,906.25. The number of people aged 155 and over has increased by 1,953.125. The number of people aged 160 and over has increased by 976.5625. The number of people aged 165 and over has increased by 488.28125. The number of people aged 170 and over has increased by 244.140625. The number of people aged 175 and over has increased by 122.0703125. The number of people aged 180 and over has increased by 61.03515625. The number of people aged 185 and over has increased by 30.517578125. The number of people aged 190 and over has increased by 15.2587890625. The number of people aged 195 and over has increased by 7.62939453125. The number of people aged 200 and over has increased by 3.814697265625. The number of people aged 205 and over has increased by 1.9073486328125.
